EXPERIENCE

Freelancer, Salt lake City,Ut — *Job Title*

August 2020 - PRESENT

I have been freelancing in various ways since 2020, but

I really didn't start programming until February 2021

When I started A bootcamp by the University of Utah.

By July the bootcamp was over and I had passed. Since

Then I have been honing my skill and striving to get

better each day.

EDUCATION

University Of Utah, Salt lake City,Ut — Full stack developer certificate

February 2021 - July 2021

This was a very intensive course teaching the fundamentals of full stack

Web development. From the html ,css and javascript on the front end to

Technologies like mysql, mongodb, node.js on the back end. As well as a crash course and real life experience with dynamic libraries like react and much more.
